A practical, interactive and hands on workshop to cover:

- Introduction to a validated **career decision making process**
- Related **theoretical concepts**
- **Engaging with the client** – activities and resources to quickly get to the core of the presenting career related issues
- **Self assessment** – activities, tools and resources to speedily enable the client to identify their critical preferences related to future work. We will introduce the 4 sets of the Career Dynamic **Clarifying Career Choice Cardsorts** among other resources
- **Marketplace information** – activities, tools and resources to assist the client to sift and filter their preferred industry and job options
- **Synthesis** – integrating this information into a relevant and simple model to maximize insight and clarity
- How to create a **research and reality testing plan** that clients or employees can use to move them towards a career decision.

Presenter:

Lee Brodie, Director of Career Dynamic BBS (HR) Massey, Dip.Teaching, CDANZ

Lee is one of the pre-eminent figures in career consulting in New Zealand working as a career counsellor, trainer, supervisor and consultant with clients from all walks of life. Her employment background includes teaching, general management, Xerox Manager for Training and Development, HR Consultant for OCG Consulting Group and running her own career practice over the last 20 years. She held the position of President of the Career Development Association of New Zealand from 2003-2005 and has taught at tertiary level in career development.
